-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 February 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-33 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-8, 13-20, 22, 23, 30 and 31 is/are allowed.
- 6) ☒ Claim(s) 10-12, 24, 25, 27-29, 32 and 33 is/are rejected.
- 7) ☒ Claim(s) 9, 21 and 26 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 02 February 2004 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some.* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "26" has been used to designate both coupled end and indent. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The drawings are objected to because in the figures it is hard to see the lip 45 in fig. 6 and the finger or protrusion 72 in fig. 11 that will prevent a nut to be dislodged from the bore of the clip apparatus. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must

Art Unit: 2831

be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claims 9, 21 and 26 are objected to because of the following informalities:

Claim 9, line 2, delete "is".

Claim 21, line 2, delete "is".

Claim 26, lines 6 and 7, before "leg" insert ---first--- in order for the claim language to be consistent.

Claim 26, line 8, delete "at".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2831

Claims 10-12, 24, 25 and 27-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 10, 24 and 25, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 32 and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee (US 5,847,923).

Regarding claim 32, Lee discloses an apparatus (figs. 1, 2) for mounting a surface mount electronic board, comprising a clip (15) having legs (not marked, but clearly seen in fig. 2, the legs are the ones forming slot 152) that retains the electronic board without penetrating the electronic board. Note it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

Art Unit: 2831

Regarding claim 33, Lee discloses the apparatus according to claim 32, wherein the clip (15) retains screws (14) and/or bolts to prevent the screws and/or bolts from being dislodged from the clip apparatus. Note it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. Ex parte Masham, 2 USPQ2d 1647 (1987).

Allowable Subject Matter

Claims 1-8, 13-20, 22 and 23 are allowed.

Claims 10-12, 24, 25 and 27-29 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 9, 21, 26, 30 and 31 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-25 and 27-29, the cited prior art does not disclose, teach or suggest, alone or in combination, the limitation of a circuit board clip apparatus comprising a first leg coupled to a base that extends generally parallel to the longitudinal axis, wherein said first leg comprises an indent, said indent comprising a first finger portion and a second finger portion, wherein said first and second finger portions extend from said first leg toward said base in a generally opposing relationship.

Art Unit: 2831

With respect to claims 26, 30 and 31, the cited prior art does not disclose, teach or suggest, alone or in combination, the limitation of a circuit board clip apparatus comprising a leg coupled to a base that extends generally parallel to the longitudinal axis, wherein said leg comprises a first finger portion, wherein said finger portion extends from said leg toward said base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hung et al. (US 6,760,231 B2) disclose a fastening assembly. Matsuda et al. (US 6,749,072 B2) disclose a frame structure for housing panel plates. Aksu (US 5,956,835) discloses test fixtures. Lonergan et al. (US 5,775,418) disclose a T-shaped locking member. Hoppal (US 5,715,146) discloses an expansion board securing apparatus. Radloff et al. (US 5,544,006) disclose a computer chassis. Kabayama (US 5,138,116) discloses a mounting device for electronic component. Yonezawa et al. (US 5,398,166) disclose an electronic component. Coules (US 3,996,500) discloses a circuit board clip. O'Cheskey (US 3,621,173) discloses mounting means.
